## You Look Yellow

The trouble is, your liver's sick. One of its products, "bile," is overflowing into your blood.

You can't digest your food, your appetite is poor, you suffer dreadfully from headache, stomach ache, dizziness, malaria, constipation, etc. What you need is not a dose of salts, cathartic water or pills—but a liver tonic.

**Thedford's Black-Draught**

This great medicine acts gently on the sick liver. It purifies the blood, renews the appetite, feeds the nerves, clears the brain and cures constipation.

It is a true medicine for sick liver and kidneys, and regulates all the digestive functions. Try it.

At all dealers in medicines in 25c packages.

El seminario por el famoso señor  
Beveridge que tanto sueña en la  
felicidad de los pueblos del sudeste  
del país.

Varios hombres prominentes de  
Nuevo México se encuentran allí  
trabajando por el pasaje del pro-  
yecto el cual parece que no tardará  
mucho en ser decretado en las dos  
cámaras y recibir en seguida la ap-  
robación del presidente. Despues  
de esto viene la expresión del pue-  
blo de los territorios concernidos  
que con sus votos aprobarán o  
rechazarán la medida.

## EL HOMBRE AUTOMÁTICO.

Un americano, Luis Perez, ha  
construido "un hombre".

Este hombre anda, habla y vis-  
ta como nosotros, y mueve sus  
ojos y trabaja en provecho de su  
constructor que posee el secreto de  
sus movimientos.

La estatura de este hombre má-  
quina es de dos metros y pico.

Hará un viaje desde Nueva  
York a San Francisco guiando un  
carruaje, en el que irán dos hom-  
bres de verdad, si el inventor con-  
sigue llevar a cabo sus planes.

Este automata tiene además la  
facultad del habla y dice a cuantos  
se le acerquen que piensa viajar  
desde Nueva York a San Francisco.

Luis Philip Perez inventor y  
autor de esta maravilla lleva largos  
años estudiando el asunto. Ya en  
1891 hizo un modelo de noventa  
centímetros de alto, el cual puso  
en un pesante de coche y engañó  
a cuantos lo veían creyendo se  
trataba de un cochero espido. Despues imaginó Luis Philip la  
construcción de un gigante de qua-  
nto intentaba sacar muco.

Construyó, pues, el hombre má-  
quina, y a la vez un gran automá-  
tico que dirige un individuo oculta-  
do en el interior del coche, en cuyo  
pesante se sienta impidiendo al as-  
tronauta.
